It was noted that the Town of Washington has the funding for the improvements at Gislason's Beach and the beach at the south end of Main Road due to a grant that it has received. The Town will also be responsible for maintaining the beach, which will include raking of the sand on a weekly basis.

After further discussion, a motion was made by Janet Wilson, seconded by Dianna that the Community Center Committee and the Red Barn Committee approve a recommendation to the Washington Island Town Board that they appropriate the funding necessary to go forward with the Gislason Beach rejuvenation project as outlined by Miller Engineering. We feel that this project will be an enhancement to the community and to the Island. Motion carried.
