Final Regulations on Employer Health Insurance Mandate

The Treasury and IRS issued final regulations on the employer health insurance mandate on Monday, February 10, 2014, that provide relief for certain employers for 2015.

The final regulations have provided relief for large employers in several different ways:

- Employers that employ 50-99 full-time and full-time equivalent workers have been granted transitional relief and do not have to comply with the mandate until January 1, 2016 (previously, the mandate had been January 1, 2015). If claiming the relief for 2015, businesses will have to certify as part of the information reporting they will still be required to do for 2015 (due January 2016) that they:
 1. did not reduce their workforce below 100 employees in 2014 solely to qualify for the relief, and
 2. did not eliminate or materially reduce the health coverage, if any, offered as of February 9, 2014.
- Employers with 100 or more full time employees have also been given a break in 2015. The proposed regulations had indicated that for an employer to be considered as offering insurance, they must offer coverage to at least 95% of

their full time employees. This requirement has been reduced to 70% for 2015 only. It will return to 95% in 2016.

The final regulations also ensure volunteers such as firefighters and emergency responders do not count as full time employees. Teachers were defined to not be part time employees.

The final regulations also provide additional guidance for the determination of large employer status and measurement and stability periods.

We will issue a more in depth analysis of the final regulations in the coming weeks.

The Parks committee met February 6th to discuss the Comprehensive Plan for the county chapter Six. There were five members present.

The consensus was that that plan didn't fit here.

As we have trails and open areas, where people can hike, and most land can be used for snowmobile trails.

We don't feel we should be the one to tell a landowner if they should allow hunting or snowmobiles trails going thru their lands.

We believe that things work well here and we should leave well enough alone.

Joel,

I need this on the docket for the next meeting.

Have we gotten anything having to deal with the mountain park and the survey? Are we supposed to just sit and twiddle our thumbs? How can we do anything until we get the survey?

There is a liability there and we need answer before we can move on.

Also what is the static of the fast system that need to be address. This needs to be done so we don't lose that loan at

The good price..can we move forward please.

This is the time of year we need to get these problems addressed.

These thing seem to have been put on the back burner and we need to address them now!!!!

Joel,

I would like a discussion on Margie's cats and the problem they seem to be causing. I don't feel that we as a town board can ignore this.

Community Center Committee to the Washington Island Town Board

Town Chairman and members of the Washington Island Town Board:

The Community Center Committee met with the Red Barn Committee on January 23rd. The following are items we would like you to consider:

- Address the feral cat issue at the Red Barn area, perhaps by spraying the perimeter of the play area with commercially available coyote urine.
- Connect with the county to request walkway stripes be painted between the beach area and the Red Barn park.
- Remove the open fireplace ring at the beach and replace it with a grill like those at the park.
- Addition of two more grills in the park area and two more picnic tables.
- Install the volleyball wood perimeter so that it is level to the ground.

Thank you for your continued support of the Red Barn park and beach. For a first year, it was very satisfying to see the beach and volleyball court well used this past summer. These numbers will increase as people become more aware of the opportunities. Kudos also to the town crew who have provided their time and expertise toward improvements.

We continue to serve as an arm of the Town Board along with the Red Barn Committee.

Community Center Chairman,

SUBJECT: Door County Comprehensive Plan Update

Our committee has reviewed the suggested Updates to the Door County Comprehensive Plan 2030 dated 12/20/2013 at our meeting on February 10, 2014.

We essentially agree with the intent of all thirteen (13) of the suggested Goals, however we do not support many of the Action Items listed under those Goals. The Action Items do not adequately reflect the rural nature of our Town nor do they reflect the unique challenges or needs of our Island community.

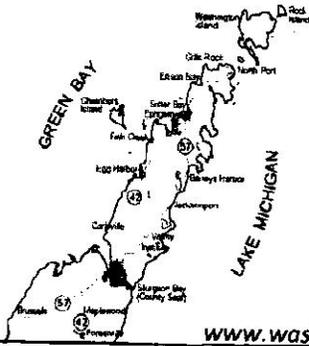

We would also request that Goal number eight (8) of the Update be returned to the list as we feel it is important to our County and Island residents, as well as visitors to Door County, Wisconsin

February 2nd, 2014

The Washington Island Police Department currently has the ability to provide vehicle license registration, vehicle renewals and temporary plates for citizens of Washington Island and those that visit. The opportunity has come before us to now process boats under 16', snowmobiles, ATV and UTVS. As it stands a citizen either has to go to a DNR office, send in paperwork or use the internet. Using the internet or mail you are not issued decals which are required to operate these machines.

Our department would like to become a Recreation Vehicle Registration Agent of the DNR. This would allow someone to come into our department for a recreational vehicle registration and walk out with printed registration stickers instantly for their recreation vehicle.

There is no cost for this program and the town will actually benefit from the registration process. Very similar to the current CVR program by collecting registration fees, with automatic withdrawal from a set bank account.

For this service our department will receive \$4.00 for decal printing and \$3.00 for validation fees. These fees are set by the Wisconsin Department of Natural Resources.

Thank you,

Chief Tyler McGrane
