Dear Joel + Town of Washington Board - 5/26/15

Please accept this check from the Door County Land Trust for projects the Town needs additional funding to complete.

We are honored to be your partner in protecting the island's forests + open lands and creating new opportunities for public recreation on the island. Please let us know how we can assist in your Town's open space + park planning -

Most Sincerely - Dan Burke
Tennie Cooper + Board of Door Co Land Trust

Washington Island Town Board

Dear Chairman and Town Board Members,

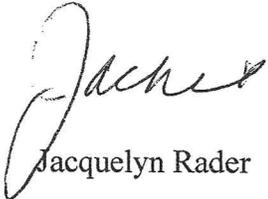

The new pavilion at School House Beach is such a wonderful addition to the island. Thanks to you and the town crew for carrying through such a good idea. Saying that, I have a request.

I understand about six picnic tables will be at the pavilion. I am writing to you to ask that you consider adding several more tables. If we want people to reserve it for gatherings such as family reunions, clubs, etc, more seating will be needed. Otherwise people will have to tote their own tables and chairs to have enough room for everyone to sit. If this is not a possibility due to the budget, maybe ask the residents to donate money for a table and put their name on it somehow?

The Washington Island Women's Club has reserved it for our dinner and August meeting. We will be celebrating our long existence on the island and anticipate a big turnout. This is just an example of the use the new pavilion will have in this community.

Thank you for considering this request.

Sincerely,

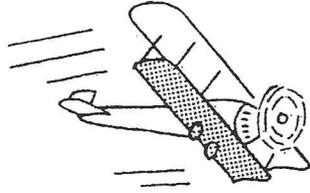

Jacquelyn Rader

Washington Island Airport

Walter Nehlsen, Manager • 920-847-2448

Honorable Town Chairman, Jim Hanson and Town Board,

After eighteen years it is with much regret that I must tender my resignation as Airport Manager for the Washington Island Airport due to ill health.

It has been a great run and I thank the Board very much!

Sincerely,

Walt Nehlsen

P.S. This will take place 5/31/2015

June 5, 2015

To: Washington Island Town Board
From: Kathleen Morris
Re: Jackson Harbor Maritime Museum

This is to inform you I am resigning from the Town position of Director of the Jackson Harbor Maritime Museum as of July 1, 2015.

It has been a positive situation at the museum working with the Town office personnel, coordinating projects with the Town crew, and organizing volunteers for our fund raising event for the last eleven or twelve years. It is time for someone else to provide their ideas to the operation of the museum.

Kathleen Morris

Mrs. Valerie Carpenter
Town Clerk - Town of Washington
PO Box 220
Washington Island WI, 54246

Dear Mrs. Carpenter:

We Are HOPE, Inc. is a non-profit provider of Weatherization services at no cost to qualified home owners and renters in Door and Kewaunee Counties. Weatherization helps homeowners and renters reduce energy consumption while increasing comfort in their home and can often make the home environment healthier and safer. The Weatherization program has operated in Wisconsin since 1980, with We Are HOPE, Inc. having been a participant since 1987. Funding is provided by the State of Wisconsin, Division of Energy and Public Benefits Program.

Weatherization measures offered include, but are not limited to:

- Sidewall, attic, or foundation insulation
- Sealing of air leaks
- Repair or replacement of heating system, water heater, and refrigerator/freezer
- Installation or replacement of exhaust fans and occasionally electrical re-wiring (replacing Knob and Tube)
- Installation of compact fluorescent lights, water-saving products, and other energy conservation measures

Most of the work our agency completes is planned in advance. (See enclosed Welcome to Weatherization/Process Timeline.) Once an energy audit is performed we know what work needs to be completed. It is then a matter of arranging a time with the client to do the work at the residence based on our agency's schedule. There are, however, some situations that are not planned in advance. These are usually when heating systems fail during the winter months, but other emergency situations have been known to arise.

Based on your municipality's building codes We Are HOPE, Inc. would like to know:

1. Would your municipality require any kind of building permit for any of the work that our agency completes?
2. If yes, who is required to obtain that permit, our agency or the home owner?
3. Also, if yes, what kind of timeline is needed in order to obtain the permit?
4. Can work be started before the permit is actually obtained?

If a written response to the four questions listed above could be provided by Monday, June 1st, 2015, we would greatly appreciate it. If you have any questions please feel free to contact me at (920) 743-7273 Ext. 121. Thank you in advance.

Sincerely,

Sierra Tremble
