Ron Overdahl**

TO: Town Board

June 30, 2014

FROM: Infrastructure Committee

Subject: Agenda Request

After meeting for several months and discussing priorities and immediate needs, the Committee has come to the conclusion that the time has come to present our recommendations to the Town Board regarding a proposed new Fire Station/Public Safety and Town Shop combined building on the present site on the corner of Townline and Airport Roads. This would then require the Town Board to vote to proceed and hire an engineer to start the project.

We have reviewed several options and realize that there is a substantial need for this infrastructure upgrade.

We are requesting some time on the next Town Board Agenda on July 15, 2014 to make our presentation and discuss the next steps in the process.

Thanks for your consideration.

John W. Rader, Chairman
