

Solicitation for Interest in Serving on the Washington Island Economic Development Committee

Pursuant to Resolution 2019-12, there are openings for community volunteers to serve on the Washington Island Economic Development Committee.

The five pillars for economic success as published by the Door County Economic Development Committee in its strategic plan are:

- 1) Business retention and expansion
- 2) Student career exploration and post-secondary options
- 3) World-class marketing
- 4) Community development
- 5) Innovative start-up system

To implement these pillars for economic success the Economic Development is tasked with developing a comprehensive plan to submit to the Town Board.

If you are interested in serving on the Committee, please contact Bill Jorgenson (920) 535-0127 or drop a letter at the Town Office. It would be helpful if self-nominations include some discussion of qualifications for interest, such that the Board may differentiate between prospective candidates.
