Good afternoon all,

Meeting this Tuesday at 7 pm via the gotomeeting app. I've attached the agenda here. The Econ Dev Committee has another meeting right before us (6-7) but I contacted them and reminded them we were booked at 7 and to please let me know well in advance if they think they will need more time. (We were scheduled first, so I'm assuming they are aware of their time limit this time).

I'm in the midst of updating minutes and I'll send copies Tuesday at some point of all the ones in backlog we need to approve. Also will send a rough draft of our fundraising/Island Rides letter then too.

The Rec is not doing anything for Easter. Between COVID and just not enough time/energy to put something together (Easter is early this year), they would like to pass the Easter Egg Hunt torch. The question is, do we want to accept it? I think its much too short of notice this year, and even though there seems to be a light at the end of the pandemic tunnel, getting a whole bunch of kids together still doesn't sound like a great idea. We could do something small/different and then decide if we want to take it over for next year.

Mull it over. Come with ideas.

It's going to be mostly Island Rides talk though.

Take care and see you all hopefully Tuesday.

Emily
